DEBUT PERFORMANCE SOLD OUT!

A one-man two-hour show that takes you on a journey through TIME and SPACE with *mind-boggling, jaw-dropping*, and completely *inexplicable demonstrations* that will plumb the depths of your imagination!

ACT I

UNOBSERVED WORLDS

Couched in a discussion of early childhood memories, **Dr Todd** explores the *metaphysical properties* of the humble deck of cards learned through the years of his misspent youth. He asks you to *suspend disbelief* and look for a ‘sign’ from Jonathan Harker, the intrepid protagonist in Bram Stoker’s *Dracula*. He challenges your conviction that Sherlock Holmes was really the paragon of *rational deductivism*. He takes you through the damp halls of the largest *Victorian mental asylum*. He concludes his tour of unobserved worlds by letting you tap into the *psychic energy* of the Titanic disaster.

~*~

ACT II

JOURNEYS

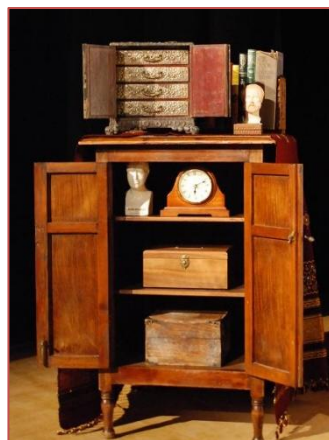

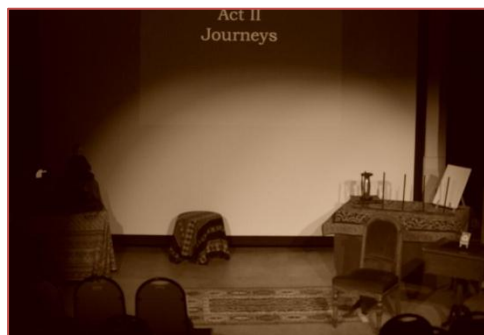

Using the world as his canvass, **Dr Todd** paints a portrait of the *journey* that is at the same time *physical* and *metaphorical*. He engages your mind with Far Eastern adventures that yield *uncanny predictions* and inexplicable *powers of clairvoyance*. He invites you to assist in a *seemingly random* derivation based on common objects you all carry with you. He provides an alternative and esoteric means to think about your own *psychological development* and then ends his own journey with a remarkable climax involving his childhood puppets and the power to *give life*.
